Health Information Exchange (HIE) Opt-Out Request Form

Health Information Exchange (HIE) enables your healthcare providers to quickly and securely share your health information electronically among a network of healthcare providers, including physicians, hospitals, laboratories, and pharmacies. Your health information is transmitted securely, and only authorized healthcare providers may access your information for purposes of treatment, payment, or healthcare operations. All such exchanges are governed by federal and state law, including the Health Insurance Portability and Accountability Act (HIPAA). GoWell Urgent Care encourages patients to participate in health information exchange so providers have the most complete and up-to-date view of a patient's healthcare.

Your Right to Opt Out
You have the right to opt out of participation in HIE. When you opt out, GoWell Urgent Care providers will not be able to access your health information through third-party HIE providers (including CRISP, CommonWell, Surescripts medication history, ConnectVirginia, and others) to assist in your treatment. However, even if you opt out:

- Providers may still receive certain lab results, radiology reports, and other data via electronic communications
- Prescriptions may continue to be sent electronically to your pharmacy
- Information may still be shared electronically with your insurance company or other payers
- GoWell Urgent Care will continue required public health reporting (e.g., infectious diseases, vaccine administration)
- Information related to controlled substance prescriptions may continue to be shared through state Prescription Drug Monitoring Programs (PDMPs), as required by law

This opt-out form only needs to be completed once for GoWell Urgent Care; you do not need to complete a separate form for each provider location.
